

## METHODS

Bubbles is a small local surf shop that provides surf equipment, along with art equipment meant to go on surfboards. Not only do they provide all of this equipment in one place, part of the shop is actually a studio where guests can pay a small fee to reserve slots and paint right there in the shop.

## VISION

Bubbles embodies a retro surfer image and a very inclusive, laid back atmosphere. Bubbles is meant to create a community where shoppers turn into regulars and hang out in the studio while trying to create an image for themselves when they are out surfing through their artwork on their surfboards. If you are an aspiring surfer seeking a consistent, yet unique image for yourself out in the water then you should come on by Bubbles!
